08/05/2013	5.0 Quality: 5.0 Customer Service: 5.0 Value for Money: 5.0	Review by Kees-jan D. in Miramar, FL Project: Service a Lawn and Garden Sprinkler System Comments: Mr. Luis responded very quickly, came out to see for himself, and gave an estimate right away. Comparing prices with other estimates, there was a big difference. Just in the 2 sprinkler heads replacement and timer a \$150US difference. Pump had also to be replaced, and all works great. Thanks! 06/06/2013	4.83 Quality: 5.0 Customer Service: 5.0 Value for Money: 4.5	Review by Sandra S. in Dania, FL Project: Install a Lawn and Garden Sprinkler System Comments: Home Advisor gave me two referrals the morning of May 7th. I called J & J Services and Luis made an appointment to come out to see the property between 3:00 and 4:00 the same day. He arrived on time and sized up the landscape & our sprinkler location needs. The installation was done on May 14th. He and his crew arrived right on time, first thing in the morning. They were fast and efficient, finishing the complete install the same day. His estimate was a little on the higher side, but the work was excellent. He has also come out to assist us in tweaking a couple of sections at no charge. Highly recommend Add Your Comments to This Review

04/07/2013	4.67 Quality: 4.0 Customer Service: 5.0 Value for Money: 5.0	Review by Phyllis A. in Fort Lauderdale, FL Project: Install a Lawn and Garden Sprinkler System Comments: There was an old system on the ground originally but did not work. J and J services did a great job reconfiguring and installing my sprinkler system for 1/2 the price that other companies quoted. It works great! My only negative is that when installing the new pipes in the ground, they cut the grass away and placed it back instead of cutting the grass and flipping it to the side so that the roots were still in tact. All of the grass that they cut to place the pipes died so I have a trail of dead grass where the pipes are located. I had to remove the dead grass that wasn't rooted and add soil and sod and start from scratch to grow the grass Add Your Comments to This Review
